The Usui Method of Natural Healing (Usui Shiki Ryoho) works by placing Reiki hands on or around the body so the Reiki Healing Energy may flow. Reiki means Spiritual-Cosmic Life force-Energy-Mind. It will empower your mental, emotional and spiritual energies, allowing you to regenerate your mind, body and spirit into your most perfect form.

Reiki has its origins in the Buddhist scriptures and was described by the Gautama Buddha in his teachings of healing, meditation and higher consciousness. One of his scrolls was found by Japanese mystic Dr Mikao Usui just over a century ago and was called *The Healing Buddha Scroll of Avlokiteshvara (the Bodhisatva of Healing and Compassion)*. Usui Sensei then meditated upon this method of higher consciousness and rediscovered this wonderful spiritual healing method - which he then later called Reiki - and taught it within the original Buddhist context and philosophy.

REIKI 1 PRACTITIONER CERTIFICATE (16 hours):

A weekend class in the presence of a true Reiki Sensei is all that is required for the permanent, enhanced energy flow of the Reiki Healing Energy through your body and hands - including the psychic gifts that should come with it.

- Better health, true happiness and healthy longevity
- Empowerment to heal others/your self at any time
- Mystical pathways of personal and spiritual growth
- Having spiritual oneness, enjoying inner tranquility
- Profound life insights of experiences and existences
- Get: 4 ceremonial energy attunements on your top chakras
- Learn: 4 Sensations, 4 Rules of Flow, 4 Emotional Releases
- Learn: 12 Reiki Treatment Positions, 4 Psychic Perceptions
- Learn: the Dr Usui Reiki hand energy breathing meditation
- Learn: the Reiki Principles with the Triple Gem Philosophy

REIKI 2 PRACTITIONER CERTIFICATE (24 hours):

There are two more attunements in Reiki 2. They are not chakra empowerments as in Reiki 1 but are connections to the energy of the symbol patterns and their resonance with the Reiki flow. Reiki 2 traditionally costs 3 times Reiki 1.

- Usui's Enlightenment Mantra - which he used to activate the Reiki Healing Power within himself! (Friday, 4 hrs)
- Reiki Calligraphy - learning to draw the three Reiki symbols in Sanskrit and Japanese calligraphy (Friday, 4 hrs)
- Distance Healing - in absentia healing, groups, the causation of disease and 'real' psychic powers (all Saturday)
- Higher Healing - higher self communication, past lives, mediumship, ghosts, house blessings, etc. (all Sunday)

The Reiki 1 theme is 'the Reiki Healing Energy - touch and flow', and Reiki 2 is 'higher consciousness - responsibility and service'. Although optional, Reiki 2 provides an amazing completion to the original Dr Usui System of Natural Healing, fulfilling its promise **as a pure, true, full and complete spiritual discipline**. Reiki 1 is amazing - so good, so very practical and spiritual - and, for most, enough. But Reiki 2 is profound, so amazingly profound! so beautiful, and powerful. You will see where, and how, Reiki originates, and why Reiki works - with all of its historic references.

Dr Jason Betts is a polymathic author, inventor and genius with university degrees in science/math/philosophy, diplomas in massage, acupuncture, metaphysical science, and western mystery school wisdom. Betts Sensei was initiated into Reiki in 1991 and has been teaching Traditional Japanese Buddho Reiki and Usui's Enlightenment Meditation since 1997. Dr Jason Betts founded the Tasmanian Psychic Expos in 1995, was awarded Australian Psychic of the Year 2008, Tasmanian Psychic of the Year 2010 and featured in the psychic reality TV Show 'The One'.

Your Reiki 1 weekend is something you will remember for the rest of your life. It is packed with a spiritual and emotional intensity that sheds the light of understanding and true wisdom upon the very substance of your life, revealing your own spiritual truths. The authenticity of the Reiki is revealed to you by the demonstration of your *feeling the strength and intensity of the energy flow of the Sensei's students* - and *feeling the true sincerity of the Sensei*. Reiki is a complete spiritual discipline, with its own meditation, energy, healing, mystical experiences, philosophy and psychic powers. It is the simplest, most powerful and effective spiritual healing tool available in the world today.

Learning Reiki is like learning that the boat of your life does not float upon the waters of spirit, but rather, that your spirit flows within the limitless ocean of life. Become you, and learn Reiki today. If you are reading this and do not fully feel its truth, you should call Dr Jason for your free Reiki experience.

To enter the Reiki dojo you should wear loose and comfortable clothing and don't bring any jewellery or telephones. A vegetarian lunch is provided on the weekends from 1pm-2pm and is included in your seminar fee with herbal teas. Students receive all lessons required for the Reiki Practitioner Certificates of Shoden (Level 1) and Okuden (Level 2).

Sapiencia Module 1 - Awakening Consciousness, Practical Psychology and Applied Philosophy

This two day class is a brilliant and exciting exploration of human consciousness suitable for every one. It truly awakens the minds of all the participants, and teaches them to think consciously for themselves. Using the thought experiments for different theoretical situations one learns to insert 'think' before 'act'.

It is consciousness that ties together our external senses - and then mixes them with our internal senses - those of thinking, feeling and being, which directs and integrates them into the physical process of doing. This class explores all of these processes with meditations, introspections, solo and interactive activities, group discussions, personal assessment feedback and lessons of psychological and philosophical theory:

- experiencing a reawakening of consciousness and taking responsibility for one's actions
- have clearer perceptions, including visual, audio, mental, emotional and self-spiritual
- be able to think more clearly and have a greater self-mental problem solving ability
- learning to be comfortable with one's self so as to be more comfortable with others
- a better understanding of task prioritisation, efficiency training and creating change
- being more in touch with one's own feelings and being aware of the feelings of others.
